Maneuver Doctrine Workgroup

Assigned Organization: DOTD: DCTD	Assigned Facilitator:	Assigned Co-facilitator:
	COL Marty Barr	Mr Curtis Archuleta

Action Officer Assigned: CPT (P) Ruben Ramos **Phone number: 706-545-4012**

Problem Statement:	How the MCoE includes the Operating Force as an active collaborator in the doctrine development process. Specifically, how the MCoE will incorporate Operating Force input for publications initiated prior to the revision of the doctrine development process.
Objectives:	Objective 1: Review. Operating Force validates ATP 3-90.5, <i>Combined Arms Battalion</i> . (Medium Effort, Medium Payoff) (Introduction to the process) Objective 2: Inform. Explain the doctrine development process(w/ Operating Force writing teams) and relay the doctrine writing schedule for the next 12 months. (Low Effort, High Payoff) (The way ahead)
Outcomes:	-ATP 3-90.5 is validated. -MCoE leaders understand their role in the doctrine development process. -Operating Force leaders understand their role in the doctrine development process. -All leaders are informed of the upcoming writing conference schedule, method for attending, and POCs for doctrine questions..
Question 1:	General: What areas/topics are missing ? Conversely, what is not needed and why?
Question 2:	Specific: What areas require more detail to increase the explanatory power of the document or adjustment to support current operations?
